

Every part is a part of me.

At GEDIA, every part and every part counts: every part - because together with almost all major automobile manufacturers, we develop and manufacture innovative structural parts for lightweight body construction. And every part - because that would not be possible without our 4,300 motivated and competent employees. Become a part of GEDIA too!

We are an international, family-run company with eight manufacturing plants. We emphasize an executed company culture, which is characterized by mutual respect and trust.

We are looking for employees for GEDIA Michigan - Charter Township of Orion, MI as an

Operator on days and afternoons
